

ATTENDANCE AT UNIVERSITY COMMENCEMENT

The University conducts a spring, summer, and mid-winter commencement. The policy for faculty attendance is as follows:

Each college shall, on a rotation basis, assign half of its faculty to attend the December commencement and half of its faculty to attend the May commencement. In addition, the Director of the University Library shall, on a rotation basis, assign one half of the professional library staff to attend the December commencement and one half to attend the May commencement. Any faculty member or professional librarian who wishes to be excused from a given commencement is responsible for securing a replacement from those not assigned to attend that commencement ceremony.

All faculty who teach during the second summer session and a representative group of professional librarians shall attend the August commencement ceremony.
